

LIONBAR™

FIBERGLASS REBAR

**2X'S STRONGER & 4X'S LIGHTER THAN STEEL...
IT'S TIME TO *REIMAGINE REBAR™*.**

WHAT IS LIONBAR™?

LIONBAR™ is powered by Binevir Composites, an innovator in the fiberglass rebar space for over 20 years. Centrally headquartered in Northeast Oklahoma, LIONBAR™ provides the highest-quality Fiberglass Rebar, Mesh, and Structural Mats for supply houses and contractors across the United States. These durable, affordable, and eco-friendly products decrease labor costs and increase the service life of concrete structures.

LIONBAR™ Fiberglass Products offer many benefits over traditional steel rebar. Made using fiberglass roving impregnated with epoxy resin, LIONBAR™ Fiberglass Products are lighter, stronger, and more affordable than steel. Each product is also highly corrosion-resistant leading to longer project lifespans, and happier customers. *REIMAGINE REBAR™* with LIONBAR™ today!

LIONBAR™ FIBERGLASS REBAR:
